

CRC Exam Resource Document

An ARCA and NAMRC Student Collaboration

Please Note: The purpose of this document is to provide students with a running list of resources that have been collected from students and professionals who have previously taken the CRC Examination. This document is not an endorsement for any specific resources, nor is there any guarantee that any particular resource will help examinees pass the CRC Examination. Our recommendation is to review these resources and any others that may not be listed in order to make an informed decision. We might also recommend consulting with peers and/or faculty who can provide additional insight and suggestions to better inform one's decision as to which study materials to use.
